## EUROPEAN MARKET INFRASTRUCTURE REGULATION

The European Market Infrastructure Regulation (EMIR) has been introduced in order to provide better transparency and reduce the risks associated with the derivatives market. The regulation imposes requirements on all types and sizes of EEA based corporate entities that enter into any form of derivative contract to report details to an approved Trade Repository. This regulation extends to cover entities who are not involved in financial services and indirectly to non-EU firms trading with EU firms.

We offer to report these trades on your behalf and require your individual Legal Entity Identifier (LEI) to do this. The LEI is designed to create a global reference data system that uniquely identifies every legal entity or structure, in any jurisdiction, that is party to a financial transaction and we are unable to accurately report your trades without it.

Do you have a Legal Entity number (LEI):  Yes  No

If yes please provide:

If no please register for an LEI number here [www.lseg.com/LEI](http://www.lseg.com/LEI)

**(Please note we require all companies to provide an LEI number to meet our EMIR reporting obligations.)**
